

Frantisek Frischmann At Children's Festivities In Vysoke Myto

The boy in the centre, peering from behind the airplane, is my brother Frantisek.

Each year in Vysoke Myto there were children's festivities. It was a big festival and was great fun for us children! Children went about dressed in various costumes.

I remember us dressing as postmen, soccer players. In this photo my brother is dressed as pilot. I don't remember who used to make our costumes and props.

My brother was proud of this airplane with NOVY YORK [NEW YORK] written on it, it was beautiful and the other children were envious.
